**To learn your child in a fun way the herbs.**

Do you know this situation. You want to feed your child healthy, but where it draws us toward parents when we go shopping in the city. **To the next burger chain!** It is really a phenomenon, an otherwise slow eater becomes the "smacking forming Burgerverschlinger". This is unhealthy eating habits, this is a conscious and yet we give unfortunately too quickly when the young fusses.

**The result is: A little chubby kid grows as zoom.**

As our Luca. All attempts to inspire our 8 year old son Luca for salad, vegetables, spices, and herbs failed. With hands and feet he defended himself against it. Even though I secretly bring something fresh to the table, he just let it stand, or better still haunted with absolute ease back on the plate. Heated debate followed, you can even think of.

Frankly, we wanted to "fight" given up. Until such a memorable day when the school was secretly my ally. This was my chance! A trick I woke up the enthusiasm for herbs and spices with Luca. Which continues to this date. He knows all.

Look forward to my little family history, can possibly also **YOU** inspire your child for fresh vegetables, herbs and spices. **Click right on the order button**
