“And what techniques could you use to increase your pleasure?”

Mel Diaz is keen to find her first job as a qualified doctor but working at a sexology clinic had never been on her radar until she goes for a job interview with the drop dead gorgeous Dr. Miller.

But Dr. Miller is far from impressed with Mel and when she realises the humiliation she will have to go through to be considered for the role she's tempted to run straight out the door.

On offer is an endurance test like none other where her sexual responses will be stimulated and monitored and her knowledge tested. Not easy for an untouched girl. It's the ride of a lifetime. Has Mel got what it takes to reach the end?
