Revised and updated, Career Discovery Encyclopedia, Fifth Edition covers a wide spectrum of careers for students who are just beginning to think about their future. For the fifth edition, each of the more than 650 careers profiled in the previous edition has been updated according to the latest information in the 2002-2003 Occupational Outlook Handbook and other sources. More than 70 new job articles have been added, covering animal handlers, automobile detailers, brewers, campaign workers, epidemiologists, health advocates, legal nurse consultants, occupational therapy assistants and aides, production assistants, science and medical writers, and more. An excellent starting place for research, this valuable resource contains current and accurate information for students. Each career article is a concise two-page spread accompanied by a photograph-more than 100 photographs are new-that relates directly to the career profiled. The two-color design provides an attractive presentation of information. Keeping in mind that from an early age students need clear information about the careers that will be available to them in the future, this comprehensive encyclopedia is written in an attention-holding, easy-to-read style. The career profiles will interest middle school students, as well as advanced younger students. Career Discovery Encyclopedia, Fifth Edition helps students match their interests and aptitudes to particular careers. Each career article lists the school subjects that are related to the career field. For example, for medical assistants, the subjects biology and mathematics are specified. The appropriate personal skills are also listed. They include technical/scientific, helping/teaching, mechanical/manipulative, following instructions, leadership/management, communications/ideas, and artistic.
