To rise from the dust and leap to the sky is a dream of many. This book is intended to show how it is practically possible for each of us to change the course of events in our lives in case we are taking the wrong direction. The book is about one child's life, but really, every one of the readers will find something that relates to his or her life's story. It is the objective of this writing that many, many other people who have experienced hardships as they were growing up will take time to relate their stories of how they moved from point A to point Z. There are some lessons in this story that the writer has learned as he journeyed to bliss, and it is his intention that each reader may catch a glimpse of them and develop them into a better working system for self and for the whole community. Many of the readers of this work may be great writers, and therefore, the writer encourages that they take time and teach these lessons more. This book is great for people of all classes. The successful will appreciate where they came from while the trodden, struggling souls will realize that there is a way out of the suppressing closet. Devoted teachers, pastors, community volunteers, Hollywood personnel, presidents, and kings will find this narration interesting, and therefore fit to be used in building up the members within their sphere of influence. This book could have been given a title such as, Ten Steps to Prosperity, but the writer thought it best to relate true events covered with pain, wonder, dreams, perseverance, goal-setting, and relationships, and community participation as the ideal method of helping all that want to better their lives. To sum it up, this work is all about the sayings, "It is possible," "You can do it," "Try again," "Never give up," "Keep dreaming," "Trust the Almighty," and so forth.
