Around the globe, throughout time, millions of ordinary people have arrived at the conclusion that UFOs cannot be explained as being due to balloons, military aircraft or sightings of Venus. On top of this, top secret bases such as the US Air force base known as Area 51 in Nevada are believed to hold the preserved remains of several species of extraterrestrial beings hauled out of the wreckage of downed flying saucers. This illustrated book takes a look at several UFO sightings, close encounters and alien abductions and asks the straight question: is this all true? It also contains a list of pertinent references to other literature on this hot topic.
