Author Dan Travis, a specialist on notorious unsolved mysteries, is on a book tour when a cryptic message plunges him into a silent war hinging on an incriminating data file. Finding it is Travis' only hope for surviving a deadly cross country chase. But to do so, he must discover the link between an extraordinary cover-up by Big Pharma and the assassination of JFK. The key lies within a secret underground of doctors sworn to an ancient oath. James Sheridan's crackling prose and driving narrative make this novel a white-knuckle ride through America's hidden corridors of power.
