The Mind Game Company - The Players Andrew Neff

Danny is ensnared in a psychological dilemma in the hidden multifaceted world of telepathy. He tries to keep abreast of how the world system operates. While collecting information, his life is abruptly overrun by a group of menacing mind-reading stalkers.

His fiancée, Megan - gone. His house and bank account - gone.

Three years have passed. They call themselves the "Mind Game Company." Danny is reluctantly challenged by relentless mind games and programs, ranging from insidious to playful bantering, while trying to maintain his sanity, uncover what he's been involved in, and find the means to change the circumstances or break their connection.

Maybe it's the theoretical Stockholm syndrome or blame it on the close proximity of mind to mind intimacy with Katherine and Marcie, but there's something in the air. Is it love or soma - a designer frequency - at times transcending elation? Could Danny fall in love with an adversary in such an aberrant relationship or has he been hoodwinked?

An original psychological romance mystery.
