# CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series)

*Kiat-Seng Yeo, Samir S. Rofail, Wang-Ling Goh*

**CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series)** Kiat-Seng Yeo, Samir S. Rofail, Wang-Ling Goh

CMOS/BiCMOS ULSI presents state-of-the-art BiCMOS low-voltage, low-power design techniques for ULSI and giga-scale integration engineering, covering process integration, device modeling, and characterization. Discover the latest MOS and bipolar models; breakthroughs in copper metallization, isolation, and deep submicron processes; and new approaches to designing logic gates, latches, and flip-flops.

### **From reader reviews:**

#### **Sharon Doyle:**

This CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series) book is not really ordinary book, you have it then the world is in your hands. The benefit you have by reading this book will be information inside this e-book incredible fresh, you will get data which is getting deeper anyone read a lot of information you will get. This specific CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series) without we recognize teach the one who examining it become critical in thinking and analyzing. Don't end up being worry CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series) can bring if you are and not make your carrier space or bookshelves' become full because you can have it in your lovely laptop even phone. This CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series) having great arrangement in word in addition to layout, so you will not really feel uninterested in reading.

#### **Bruce Parisien:**

Now a day people who Living in the era where everything reachable by talk with the internet and the resources inside it can be true or not involve people to be aware of each facts they get. How people have to be smart in receiving any information nowadays? Of course the answer is reading a book. Looking at a book can help men and women out of this uncertainty Information particularly this CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series) book because this book offers you rich data and knowledge. Of course the details in this book hundred pct guarantees there is no doubt in it as you know.

#### **Willie McCorkle:**

A lot of people always spent their very own free time to vacation as well as go to the outside with them family members or their friend. Are you aware? Many a lot of people spent that they free time just watching TV, or playing video games all day long. If you need to try to find a new activity this is look different you can read the book. It is really fun in your case. If you enjoy the book that you just read you can spent 24 hours a day to reading a guide. The book CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series) it is quite good to read. There are a lot of people that recommended this book. These were enjoying reading this book. When you did not have enough space to create this book you can buy the particular e-book. You can m0ore very easily to read this book from your smart phone. The price is not to fund but this book offers high quality.

#### **Paul Dubose:**

The reason? Because this CMOS/BiCMOS ULSI: Low Voltage, Low Power (Prentice Hall Modern Semiconductor Design Series) is an unordinary book that the inside of the e-book waiting for you to snap the

item but latter it will zap you with the secret the item inside. Reading this book adjacent to it was fantastic author who all write the book in such incredible way makes the content inside of easier to understand, entertaining method but still convey the meaning totally. So , it is good for you because of not hesitating having this anymore or you going to regret it. This book will give you a lot of benefits than the other book possess such as help improving your skill and your critical thinking approach. So , still want to postpone having that book? If I ended up you I will go to the book store hurriedly.
