If you give in to temptation and give a bored little mouse your iPhone, *even for ten minutes*, he's probably going to beam to some faraway place beyond time, space, and the sound of your pleading voice. And if he's that far gone, he won't have any idea what's going on around him, and he might end up missing out on all the *real* fun.

From the *New York Times*-bestselling author of *Goodnight iPad* comes a delightful new commentary on the perils of our tech-obsessed lives and a fully charged romp for readers of all ages.
