Humans are not from Earth: a scientific evaluation of the evidence Ellis Silver

An evaluation of the evidence for and (mostly) against man's evolution on Planet Earth, by a leading environmentalist and ecologist.

Including:

An evaluation of the thirteen leading hypotheses

Seventeen factors which suggest we are not from Earth

How did we get here?

When did we get here?

What is our home planet like?

The most likely stars that our home planet orbits

If the aliens are out there why can't we detect them?

Are we the aliens?

In this fascinating book Dr. Ellis Silver provides answers to all of these questions, based on current evidence and thinking in the scientific community and elsewhere. Links to websites that discuss the evidence and debate the issues in more detail are also provided.

This short book is intended to raise awareness and stimulate debate and to request/gather further evidence from readers. It is a prelude to a more in-depth work due to be published in spring 2016.
