Report Writing for Architects and Project Managers

David Chappell

Report Writing for Architects and Project Managers David Chappell
Report writing is a much neglected aspect of architectural practice - something to be "picked up" as the architect gains experience. This is surprising since a sizeable part of an architect's work consists of preparing reports of one sort or another. This book brings together standard report formats to cover all the common examples to simplify the architect's job and to highlight important points to be considered.
