Sight reading music is an essential part of being able to communicate with other musicians in their own language. *Professional musicians communicate with written music*, and because very few other instruments use tablature, musicians simply learn to read music as a natural part of learning to play.

Pitch Recognition

Rhythm Recognition

The exercises in Sight Reading Mastery are limitless and *continually challenge, develop and improve your sight reading skills - however far you advance.*

The problem with many other sight reading texts is that the student quickly memorises the study pieces that are included, however, Sight Reading Mastery for Guitar cleverly avoids this problem.

The melodic exercises *gradually increase in complexity* as you progress through the page and are designed to be almost impossible to memorise. This leaves the student with an inexhaustible resource for life.

There are *dedicated chapters* on how to practice, and scale theory. There are *many diagrams* detailing the best way to find and play written pitches on your guitar and of course an in depth study of *how to recognise pitches* and rhythms on the written stave.
